CAMAC

CCP－PCI／F Board

This interface board becomes I/F on a personal computer side to use Crate controller C001(CCP-F) of CAMAC.

A pattern is divided by the kind of the personal computer as follows.

I have this board available even if the interface for the controller of VME, F-BUS and TKO is taken again.

Pattern turn	Computer
ＣＣＰ－ＰＣＩ	A computer with PCI
ＣＣＰ－ＰＣＣ２	A notebook personal computer with the PC card slot (Ｗｉｎ ＸＰ)

＜ Specifications ＞
